PLEASE INDICATE YOUR MEMBERSHIP LEVEL

- Sponsor** (\$650; includes 5 individual memberships)
- Bronze** (\$1,300; includes 10 individual memberships)
- Silver** (\$3,250; includes 25 individual memberships)
- Gold** (\$5,850; includes 50 individual memberships)

PAYMENT OPTIONS

- Check Enclosed
- Send an Invoice

Membership is on a calendar year basis. Dues for all members joining during the year will be pro-rated on a monthly basis, to include the month the application is submitted. All members joining in December will be charged the full annual dues and membership will include the following year.

Submit application via email or mail as noted above; checks should be made payable to "The Engineers' Club of Philadelphia.

List those employees to be given individual member benefits on the next page. We would like you to designate a primary and alternate contact with whom we should coordinate any membership issues.

Club membership is not limited to engineers. We encourage you to consider including other employees such as planners, environmentalists and those in human resources, public relations, accounting, and information technology. All that is required is to be interested in the engineering profession and encouraging the growth of the engineering community. Current members include accountants, CAD professionals, and lawyers, those who interact with engineers on a regular basis.

If you are including employees from additional offices, please use a separate form for each office, so we have the correct mailing address.

You may add individual members during the year. You may also include additional members beyond that provided by your membership level by paying the individual rate of \$120 per member.

COMMITTEES: Club members are encouraged to get involved in our committees. This helps them make the most of their membership and it can be a good leadership training ground. They will be able to sign up after receiving a welcome email.

- Administrative (Internal operations, website, HR, IT)
- Affiliate Affairs
- Delaware Valley Engineers Week
- Finance
- Member and Partner Relations
- Professional Development (Meetings, Education Courses, Symposiums)
- Public Relations
- Student Outreach

TECHNICAL ADVISORY COUNCIL: Members are encouraged to indicate interest in participating in the newly formed Technical Advisory Council as well. The members of this Council will be called upon to provide "high-level" review / reality check of new concepts being proposed to governmental policy makers, within their areas of expertise.
