## *The Engineering and Technical Center of the Delaware Valley*

### CORPORATE MEMBERSHIP

Engineering is the cornerstone of the American lifestyle as we know it today. It tackles major issues and is truly woven into the fabric of each of our daily lives.

At the same time, it is clear that the engineering profession is currently in crisis. Over the past several years, it has been impacted by the pressures of the global economy and the diminishing numbers of young people choosing technical careers. Additionally, there is an increasing fragmentation of the engineering community as “specialty” areas have emerged.

The Engineers' Club of Philadelphia is working to resolve the challenges you face. It is the **catalyst** in the Philadelphia region to unite the engineering community. Through increased **professional development opportunities, information exchange, and collaborative efforts** with local engineering firms, technical societies and educational institutions, the ECP can help stem this crisis and reinvigorate the engineering community in the greater Philadelphia region.

The Club uniquely serves the **entire** engineering community through inclusion of all disciplines. It is perfectly positioned as the **Engineering Center in the Philadelphia Region**.

#### *What Does This Mean For.....?*

##### **Companies who employ Engineers:**

The Club is the place to come to provide professional development opportunities for your staff to create the enlightened leaders of today and tomorrow throughout the company. **The Club is your corporate solution to comply with the newly mandated continuing educational licensing requirements for PA and neighboring states.** It is the place for your staff to network and to **discover new business opportunities.**

##### **The Engineering Community:**

The Club is the focal point for the engineering community in the Delaware Valley and provides a unified voice for the profession. It stimulates interest in the field so young people want to become an engineer. It helps build future leaders in the engineering profession to ensure excellence in engineering continues in the Philadelphia region for generations to come.

It is an exciting and energized time for the Club – full of many new initiatives and opportunities for both the Club and its members. As the Club continues its corporate membership emphasis, we invite you to join Pennoni Associates, Urban Engineers, Burns Engineering Group and Arora Engineers, Drexel and others in becoming a corporate member of the Club.
